\_\_\_\_\_ relieved \_\_\_\_\_ on Line # 7-C-45A in C module at PM shift change. Went into the gloves, then checked himself on alpha met, and had hot hands. I was called back there and I found eight gloves hot. \_\_\_\_\_ changed four gloves and deconned four. Alpha mets on the line were working. Believe day shift operator did not use apha met after working in gloves prior to going to another set

RESPONSIBLE SUPERVISOR'S FINDINGS I talked to \_\_\_\_\_ about the incident on box 7-c-45. \_\_\_\_\_ left the module at 12:00 noon July 2, 1985 for vacation. He told me he checked his hands on the alpha met. when he left the machine and he also checked his feet and arms on the alpha comb. before leaving the module and again before leaving the hot build. to shower and found no contamination. No other machinist was assigned to this box until pm shift arrived. \_\_\_\_\_ reported at that time that he had hot gloves. It is unknwn if any other person entered the box between noon and the time \_\_\_\_\_ arrived on pm shift.

CORRECTIVE ACTION: NONE AT THIS TIME.
